Re: IB Docket No. 08-184
Ex Parte Filing

Dear Ms. Dortch:

Pages 6-7 of the narrative accompanying the transfer of control applications in the above-referenced proceeding describe certain interests held by Harbinger Capital Partners Master Fund I, Ltd. and Harbinger Capital Partners Special Situations Fund, L.P. (collectively, "Harbinger") in FCC-licensed companies in addition to their interest in SkyTerra.¹ Pursuant to Section 1.65 of the Commission's rules,² attached to this letter is a revised version of the description on pp. 6-7 that has been updated through April 25, 2010.

¹ Harbinger filed an updated version of the narrative on March 27, 2009, and on April 8, 2010, it filed a revised version of the description on pp. 6-7, updated through the March 26, 2010, release date of the Commission's Memorandum Opinion and Order and Declaratory Ruling in this matter.

² 47 C.F.R. § 1.65.

Please direct any questions concerning this filing to the undersigned.

Sincerely,

A handwritten signature in black ink that reads "Henry Goldberg". The signature is written in a cursive style with a large, stylized "H" and "G".

Henry Goldberg
Attorney for Harbinger Capital Partners

ATTACHMENT

Based upon publicly-available information, Harbinger believes that it and its affiliates currently hold approximately 28% of the issued and outstanding ordinary (voting) shares of Inmarsat plc (“Inmarsat”) and also holds convertible bonds in Inmarsat.¹ In addition, Harbinger owns approximately 31% of the voting shares and approximately 44% of the equity of TerreStar Corporation (“TerreStar”), as well as debt instruments in TerreStar. A wholly-owned subsidiary of TerreStar’s (approximately) 88% subsidiary, TerreStar Networks Inc., holds an FCC letter of intent (“LOI”) authorization for the launch and operation in the United States of TerreStar-1, a Canadian-licensed S-band MSS satellite that was launched in July 2009 and has a footprint covering the United States and Canada. Harbinger’s minority interest in TerreStar is non-controlling.

In addition to their interests in Inmarsat and TerreStar, the Harbinger Capital Partners Funds have interests in many companies, including the following FCC-licensed telecommunications and media companies in which Harbinger holds an equity interest of 10% or more² (and, except as noted, less than 25%): Satelites Mexicanos Sa de CV; One Dot Six Corp.³; and One Dot Four

¹ Inmarsat Hawaii, Inmarsat, Inc. and Stratos, all of which are Inmarsat subsidiaries, hold FCC authorizations.

² Although neither a voting nor equity interest of 10% or more, we note that Harbinger holds 13.46% of the debt of Teleglobe Inc. associated with CUSIP 87941TAD7, 6.25% of the debt of Teleglobe Inc. associated with CUSIP 87941TAE5, and 18.8% of the debt of Teleglobe Inc. associated with a series of escrowed notes. Although well below 10%, it is also noted that Harbinger has a 0.25% interest in Sprint Nextel and 0.47% of an issue of Sprint Nextel bonds. Although also well below 10%, it is noted that Harbinger continues to report in its quarterly Securities and Exchange Commission filings that it is the beneficial owner of 1,142,000 shares of Leap Wireless International Inc., which constitutes a 1.47% position (the “Leap Shares”). However, because the Leap Shares were held in an account at Lehman Brothers, Harbinger believes at this time that it will not recover the Leap Shares and it does not otherwise have the ability to vote or control them. Please see the disclosure set forth on the first page of Schedule 13F filed by Harbinger on November 16, 2009 located at http://www.sec.gov/Archives/edgar/data/1371517/000091957409016261/d1045604_13f-hr.txt. Although also below 10%, Harbinger has a 9.48% interest in Palm, Inc.

³ Harbinger owns approximately 99.8% of One Dot Six Corp. is the lessee under a long term *de facto* transfer lease of a nationwide license in the 1670-1675 MHz band.

Corp.⁴ Harbinger also has an interest in Augere Holdings (Netherlands) B.V., a Dutch private limited liability company that currently provides broadband internet services in emerging markets in South Asia.

⁴ Harbinger owns approximately 99.8% of One Dot Four Corp., which is the lessee under a long term spectrum manager lease of various licenses in the 1.4 GHz band.
